Work Experience

Android App Developer   October 2020 - October 2023

GA Technologies Co. Ltd. - https://www.ga-tech.co.jp/en/   Tokyo, Japan

- Managed the maintenance and feature expansion of a real estate portfolio management app, OWNR by RENOSY, servicing a significant user base in Japan and China.
- Collaborated with iOS developers, server developers, and project managers in Japanese.
- Updated dependencies and libraries stagnant since 2018 to their latest versions as of 2023.
- Removed deprecated code and warnings from the app's codebase comprising hundreds of files.
- Received training as a full stack developer in the use of shell programming, JavaScript, CSS, Ruby, Ruby on Rails and PostGreSQL. (October 2020 - June 2021)

Tech stack:
- Kotlin, RxJava, Dagger, Retrofit, Git, GitHub, CircleCI, MVP architecture and clean architecture
- Conducted unit testing using JUnit and Mockito.
